Meet 520 Fifth Avenue—a luxurious approach to midtown living.

520 Fifth Avenue introduces a new perspective to Midtown Manhattan living, reaching new heights at 1,000 feet. This soaring structure, the result of a collaboration between the esteemed architecture firm Kohn Pedersen Fox Associates and the interior design prowess of AD100 designer Charles & Co, represents a new era of luxury living. With only 100 residences, this boutique skyscraper offers an exclusive living experience with panoramic views of the iconic Manhattan skyline from every window, encompassing the expanse from river to river and further.

520 Fifth Avenue's 100 residences are luxurious in their nature.

This building offers spacious residences but also an unmatched lifestyle. Its 88th-floor amenity suite caters to every desire, and a private members club at the building's base offers fitness, dining and cultural programming. Attention to detail and the promise of world-class hospitality set this building apart, offering residents a unique and luxurious opportunity to live in the heart of New York City.

Soaring high with Manhattan skyline views and spacious interiors to match, 520 Fifth Avenue redefines New York City living.
